Higher Secondary Education
2014– 2015

SKILLS

- **Front-End**: HTML, CSS, JavaScript, ReactJS
- **Back-End**: Python, REST API, Django
- **Database**: MySQL
- **Version Control**: Git
- **Tools & Platforms**: VS Code, Postman

CERTIFICATIONS

- Full-Stack Web Development Certification

PROJECT

E-commerce Website

- Developed a full-stack e-commerce platform with React and Django, incorporating Material-UI (MUI) components for a modern, responsive design.
- Implemented key features: user registration/login, product management, add-to-cart functionality, and secure cart checkout.
- Integrated dynamic product updates and real-time cart management using RESTful APIs.
- Ensured a seamless user experience with intuitive UI/UX design and responsive layouts.
- Secured transactions and user data through robust backend authentication and validation processes.

Dynamic Web App with React and JSON Server

- Developed a React-based web application with smooth page navigation using React Router.
- Utilized JSON Server as a mock REST API for local data storage and retrieval.
- Integrated Axios to handle API requests and display dynamic content from JSON data.
- Focused on optimizing frontend performance and efficient data handling.
